1. The Tale of the Dragon Sword

Long before the civilization of mankind, extremely fierce yet primitive life forms roamed the earth and battled for supremacy. Thousands of years ago, the final battle took place. One side, after using all its strength, perished while the other was sent to and sealed off in a different dimension. The tale of this battle was preserved in legend after mankind began to populate the earth and the two forces, known respectively as the gods of the Dragon and the demons of Darkness, came to be revered by certain clans among the people.

By the summer of A.D. 1988, even this ancient great tale had almost been completely forgotten. However, one very evil being appeared and, with the help of his followers, began to build an Empire of Darkness. That being was Jaquio — a member of the Demon clan who plotted to bring the demons of Darkness back to the earth. He secretly schemed to steal and bring together, for the first time in aeons, the two "Statues of Light and Darkness" said to contain great magical power. This would open the passageway between the dimensions.

There was, however, one man who would stop at nothing to foil Jaquio's evil plans — head of the Dragon clan, Ken Hayabusa. After entrusting the Dragon Sword, an heirloom of the family and clan so old that no one knew when it had been made, to his son Ryu, Ken left for the fateful battle. Unfortunately, Ken was defeated by a powerful warrior and the Statue he was protecting fell into the hands of Jaquio.

After hearing of his father's death, Ryu took the Dragon Sword and went to America. Aided by a female CIA spy, Irene, Ryu stealthily infiltrated Jaquio's secret hideout.

The inevitable duel between them ended in victory for Ryu. Jaquio was vanquished along with his Empire of Darkness. Or so it seemed....

Watching this duel from afar was the real evil, the head of the Demon clan, the Evil Lord himself, Ashtar. As it turned out, Jaquio was nothing more than a pawn of this greater power.

Ashtar hid himself in the darkness, assessing his enemy. His eyes shined and he licked his lips. He had only to wait for his enemy.

A year passed.

While pursuing her investigation into the movements of the mysterious Ashtar, Irene suddenly disappeared. A super-secret CIA special force platoon then became pinned down in front of some old ruins that were believed to house Ashtar's headquarters. The situation looked desperate.

At this point, Ashtar, who himself had actually seen the birth of the Dragon Sword and knew of its potentially awesome powers, emerged again from the depths of his dark realm. Ryu, who knew nothing of all this, was in grave danger as Ashtar worked his black magic to destroy him.

And now, the saga continues with the final tale of battle for our brave hero. After Ryu's victorious duel with Jaquio, Ashtar returned to the bowels of darkness and bided his time. But another evil creature was already on its way as another adventure awaits the unsuspecting Ryu Hayabusa...

...in this, the final chapter of Ninja Gaiden.
