Story

At the end of the 18th century, Japan suddenly became engulfed in a wave of natural disasters and cruel and vicious wars. Life became a constant and brutal battle for survival. The maelstrom of evil began spreading across the seas to other countries, and it seemed as if the whole world would soon be enveloped in an age of darkness.

A man with mysterious powers, preaching a heretical religion, had appeared at the same time the troubles began. It seemed that the violence and evil was connected to this religion, for war and disaster followed wherever it spread. The man's name was Shiro Tokisada Amakusa, and his power grew stronger and stronger by the day, until it seemed that nothing could stand in his way...

Little did the world know that Amakusa was actually the servant of the evil Ambrosia, and had been sent to draw the world into a vortex of chaos and destruction. Now, as Amakusa's influence spreads to country after country, it's time for the final battle...it's time for a SAMURAI SHODOWN!

Game Rules

Samurai follow a strict code of behaviour...and the following Shodown rules! The first warrior to win two out of three duels wins the match. A referee indicates the start of each duel and the winner.

- A duel ends when a warrior's strength reaches zero, or when he or she can no longer stand up. The warrior still standing is declared the winner.
- If there is a fixed time limit, and both warriors have won the same number of duels at the end of a match, the warrior with the most strength remaining is declared the winner.
- In the event of a double knockout, or when both warriors have the same remaining strength level, the duel ends in a draw.
- If neither warrior wins two out of 3 duels, there is a final duel to decide the winner. The winner of this duel is declared the winner of the match.

Player Join-In

TWO SAMURAI ARE BETTER THAN ONE!

When playing in 1P Game mode, a second samurai can join in at any time. Press the Start button on the 2P controller and player 2 can begin playing the game.

CONTINUE

After losing a match in 1P Game mode, the Continue screen appears. If you press the Start button before the countdown reaches zero, you can start playing again from where you were defeated. If you've achieved a high score, you can input your name, and then continue the game. Use the + Control Pad to select letters, and press the A button to set.

Bonus Stages

Bonus stages appear during the game. In these stages, straw dummies appear from the top and bottom of the screen - cut down as many as you can!

If you manage to cut down the minimum number of dummies within the time limit, a special bonus will be added to your score. Be prepared - the bonus stages get harder and harder as the game goes on!

Basic Controls

Genan Shiranui, Kyoshiro Senryo, and Wan Fu can do a forward crouching move (+ Control Pad to bottom right) and a crouching retreat (+ Control Pad to bottom left).

For hard attacks, press the hard attack button and either the Kick or Slash button simultaneously. If you press both the light and medium Kick or Slash attack buttons at the same time, you'll unleash a Power attack for maximum damage! If you try to do a Slash attack when you don't have a sword, you'll only be able to do a low-power punch attack.

* Button arrangements can be changed in Option mode (please refer to page 10 for details).

DASHING AND JUMPING BACK

Rapidly press the + Control Pad twice forwards to dash, and twice backwards to jump back. Don't underestimate these kind of moves - they may seem kind of boring, but if you use them skilfully, you'll find they come in very handy!

SPECIAL ATTACKS

Each samurai warrior has his or her own special attacks. Check out page 34 for details of each character's special attack commands. The moves marked "(Sword)" can only be used when you have a sword, so make sure you've got one before you try to use them!

The Rage Gauge

USE THE POWER OF YOUR ANGER!

Keep your eyes on the "Rage Gauge" at the bottom of the screen! The gauge increases every time you are injured. When it reaches maximum, you'll be ready to use the power of your anger! Your face will change color, and for a limited period of time all your attacks will be much more powerful! The rate at which the gauge increases, and how long the rage power lasts, differ for each character - make sure you learn how your character reacts. The rage gauge stays at the same level when you move from one duel into the next, so even if you lose the first duel, you can use your rage power to help you win the next!

Check out the difference a bit of "rage power" can make when you attack!

Items

Watch out for the special "Courier Man" when you're dueling - he'll run past, lobbing parcels at you and your opponent. Some of these deliveries will help you to victory, but some are lethal...watch out!

Meat (Life Restoration)

Try to grab all of these items! The larger the portion of meat, the more your life gauge will increase.

Money (Points)

Money, money, money - everything from cash boxes to small change. The greater the amount, the more points you score.

Bombs (Run!!!)

Watch it - these items explode! You've got a few seconds to escape before they blow up, and if you're still nearby when they do you'll be injured!

Sword Know-How

Superior swordsmanship is the secret to Samurai success!
Hang on to your sword at all costs - your attack power is much weaker without it.

LOCKING SWORDS ■ ■ ■ ■ ■ ■ ■ ■ ■ ■

As soon as you lock swords with your opponent in close combat, start pressing the Slash button repeatedly - if you slip up here, your sword will be flipped away!

LOSING YOUR SWORD ■ ■ ■ ■ ■ ■ ■ ■ ■ ■

If you lose your sword, you're gonna have to duel empty-handed - and this is going to really put you at a disadvantage! Get over to your weapon as fast as you can and press the slash button to pick it up!

SWORD-STOPPING ■ ■ ■ ■ ■ ■ ■ ■ ■ ■

Even without your sword, there's a way you can prevent your opponent from slashing you. A hint on how to do it - rush into your enemy's chest!
