PICK-UPS

WEAPONS & WEAPON PICK-UPS

As Lt. Ripley, you begin the game with a standard-issue 9mm automatic pistol. Throughout the game, you'll come across different weapons or items that can be used as weapons. To pick up a weapon or ammunition, walk over it. A sound will indicate that it has been collected. Ammunition for the various weapons can be picked up as you play. There are varying limits to the amount of ammo you can carry for each weapon. You can carry all your weapons at once. Your current weapon is displayed on screen in your hands. There are two ways to view your available weapons:

• Press the START BUTTON to pause the game and bring up the Pause Select Screen, where you can view and select available equipment and weapons. To arm yourself with a different weapon from your available supply, press UP or DOWN to toggle through them, then press the X BUTTON to select the highlighted weapon. Press the START BUTTON to return to the game.

• You can switch weapons during game play by pressing the ▲ BUTTON until the desired weapon appears in your hands.

Pulse Rifle

Using the power of a pulsed rifle fire, this deadly rifle does double duty as a rifle and a grenade launcher, packing real stopping power.

Pulse Grenades

Players can hold up to 20 grenades at a time.
